[Memo 11-2-07 NPS 319 v TMDL Impl reviews.doc](#)

Karen and Koto,

It was good talking with you today. I am excited about what is being done to build onto the NPS in Oregon. Thanks for all of your hard work!

Attached are two documents related to TTs comparison of the TMDLs with the WBPs. The study covers OR, WA and ID. It looks like there's some very good information here.

I also talked two of the other 319 Coordinators. As suggested, we all believe it is important to review/compare WBPs, WQMPs/implementation plans or TMDLs to the nine elements. I still plan to talk with another coordinator but I am not seeing much consistence in how or when this gets done.

Let me know if you have any questions.

Again, thanks for your hard work.

Alan

Jenny and Jayne,

Do either of you have the results of TTs work that compared OR TMDLs with WBPs? I am working with the OR NPS/319 folks and would like to find that piece of work.
